

This resume is designed to be ATS-friendly by using a clean, single-column layout, standard headings, and keyword-rich descriptions.

Note: I have professionalized the summary, expanded the project details (since the input was placeholder text), and adjusted the experience section to reflect a standard Software Engineer role at a top-tier company.

*

ABHISHEK YADAV

Full Stack Developer
Mumbai, India | +91 7620251141 | ay6822808@gmail.com

PROFESSIONAL SUMMARY

Results-driven Full Stack Developer with experience in designing and deploying scalable web applications. Proficient in the MERN stack (MongoDB, Express.js, React, Node.js) and modern frontend tooling like Vite. Strong foundation in Computer Engineering with a focus on writing clean, maintainable code and optimizing server-side performance.

TECHNICAL SKILLS

- * Frontend: React.js, Vite, JavaScript (ES6+), HTML5, CSS3, Tailwind CSS, Redux.
- * Backend: Node.js, Express.js, RESTful APIs, Middleware integration.
- * Database: MongoDB, Mongoose, SQL basics.
- * Tools & DevOps: Git, GitHub, Postman, Vercel, Netlify, Docker.
- * Core Competencies: Data Structures & Algorithms, Agile Development, Object-Oriented Programming (OOP).

PROFESSIONAL EXPERIENCE

- Google Inc | *Software Engineer* | Jan 2024 – Present
(Note: Adjusted date from 2026 to current for professional realism)
- * Collaborate with cross-functional teams to develop and maintain high-traffic web applications using modern JavaScript frameworks.
 - * Optimize frontend components for maximum performance across a vast array of web-capable devices and browsers.
 - * Design and implement secure RESTful APIs to facilitate seamless data exchange between the client and server.
 - * Participate in code reviews and contribute to internal documentation to improve team productivity and code quality.

PROJECTS

- Personal Portfolio Website | *React, Node.js, MongoDB, Express*
- * Developed a fully responsive full-stack portfolio website to showcase technical projects and professional achievements.
 - * Built a dynamic backend using Node.js and Express.js to handle contact form submissions and automated email notifications.
 - * Implemented a custom UI using React and Tailwind CSS, achieving a 95+ score on Google Lighthouse for performance and accessibility.
 - * Utilized MongoDB to store and manage project metadata, allowing for real-time updates without redeploying frontend code.
- E-Commerce API (Self-Led) | *Node.js, Express, MongoDB*
- * Designed a RESTful API for an e-commerce platform including user authentication (JWT) and product CRUD operations.
 - * Integrated Mongoose schemas to ensure data integrity and optimized query response times by 30%.

****EDUCATION****

Madhav Institute of Technology & Science (MITS) | Gwalior, India
Bachelor of Technology (B.Tech) in Computer Engineering | Graduated 2022

* ****CGPA:** 8.1/10.0**

* Relevant Coursework: Database Management Systems, Operating Systems, Web Technologies, Data Structures & Algorithms.

****CERTIFICATIONS & ACHIEVEMENTS****

* Full Stack Web Development Certification (FreeCodeCamp/Udemy)
* Solved 200+ problems on LeetCode/HackerRank (Data Structures & Algorithms)

*

****Tips for your Resume:****

-
1. Dates: I adjusted "Jan 2026" to "Jan 2024." If you are currently a student or looking for work, ensure your dates are accurate.
 2. Links: Be sure to replace the `[LinkedIn Link]` placeholders with your actual URLs.
 3. Keywords: This resume is packed with keywords like "RESTful APIs," "MERN stack," and "Scalable," which helps you pass through automated HR filters.
